A Safeguard.

The fata, rapidity with which slight Colds and Coughs frequently developinto the gravest mataties of the threat and lungs, is a consideration which should impel every prudent person to keep at hand, as a household remedy, a bottle of AYER'S CHERRY PECTORAL.

Nothing cive sives such immediate relief Nothing else gives such immediate relief and works so sure a cure in all affections of this class. That eminent physician, Prof. F. Sweetzer, of the Maine Medical School, Brunswick, Me., says:— "Medical scheme has no says:— "Medical science has produced no other ano-dyne expectorant so good as ATRE's CHERRY Frevenal. It is invaluable for diseases of the throat and lungs." The same opinion is expressed by the well-known Dr. L. J. Addison, of Chicago, Ill., who says:—
"I have never found, in thirty-five years of the property of the condition and the condition of t continuous study and practice of medicine, my preparation of so great value as Aven's Chenax Pecronal, for treatment of discusse of the throat and lungs. It not only breaks up colds and cures severe coughs, but is more effective than anything class in relieving even the most actions bronchini and pulmonary affections."

AYER'S Cherry Pectoral

is not a new claimant for popular confidence, but a medicine which is to-day awing the lives of the third generation who lave come into being since it was first offered to the public.

There is not a household in which this invaluable remedy has once been introduced where its use has ever been abandoned, and there is not a person who has ever given it a proper trial for any threat or lung disease susceptible of cure, who has not been made well by it. well by it.

AYEN'S CHERRY PECTORAL ass, in numberless instances, cured obstinate cases of chronic Bronchitis, Larnygitis, and even acute Pneumonia, and has saved many patients in the carlier stages of Pulmonary Consumption. It is a madicine that only requires to be taken in small closen, is pleasant to the taste, and is small closen, is pleasant to the taste, and is small closen, as there is nothing so good as AYER'S CHERRY PECTORAL for treatment of Croup and Whooping Cough.

These are all plain facts, which can be verified by anybody, and should be remembered by everybody. New York

"Well, this is a big improvement," said Robert Lurdbloom, as he edged his way out of the wheat pit this morning. The roar of the "bulls" and "bears" seems to be gradually acquiring something of the old ring, and although, as yet, business is by no means brisk, general trade is picking up, and it is expected that within a few weeks the old-time activity will be witweeks the old-time activity will be witnessed once more. Spaculators have become disgusted with politics, and Kent,
Baker, Schwartz, Nat Jones, and other
prominent men, are back planning
schemes to make values lively again. It
must be confessed, however, that although
the volume of transactions is larger, neither side has succeeded in making any considerable winnings. Prices stubbornly resist any attempt at boosting, under present circumstances. Chicago is now the
highest wheat market in the world, owin
to the extreme reluctance of old-time maother hand the "bears" freely acknowledge that they don't hope to secure a break of over a cent or two and don't pro-pose to stand on their trades should the

market go more than fractionally agains them. The grain movement is on the de crease, both receipts and shipments being lighter. Advices, too, from interior points say that deliveries are very small and that receipts at all Western centers for the next week or two will show a large falling ment is not as large as heretofore, yet in-dicates a further increase in the visible supply. Receivers claim, however, that if their reports from the country are cor-rect this will be the last time it will show hied, from the East, speculators there are making larger purchases.

Corn is unsettled, and a private dispatch from New York says that certain patch from New York says that certain strong Gotham men will soon make an attempt to put up year com, both in that market and in Chicago. The cash demand continues good and is still largely from interior points, it being worthy of note, as showing where the great consumption really is, that out of a total of 6,300,000 bashels before a few weeks

words, New York received just 12 per cent. of the shipments; yet she thinks she monopolizes all the trade that is worth having and ought to dictate prices. Provisions are fairly active for cash an Hominy and Grits—From store, \$3.50 to fill the orders. Receipts of hogs are light and out of 1800 reports received by a leading trader from all parts of the Wes ern hog-raising States 1300 dealers segment of 1500. will be late coming forward for the new season, and about 500 say farmers have yet a good many animais left and are dis-posed to sell them just as fast as ready.
